(54) Title: TRUNKING AND COUPLING MEANS THEREFOR

WO 2004/006400 A1

(57) Abstract: A coupling (30) for coupling a first section of trunking (32) to a second section of trunking (34), has a body (36). The body (36) has first and second elongate members (38) and (40), and defines first surface (42) and second surface (44). The first surface (42) is adapted to engage a first flange (46) on first trunking section (32) and the second surface (44) is adapted to engage a second flange (48) on second trunking section (34). A third surface (50) of body (36) connects the first and second surfaces (42) and (44) and provides a substantially continuous surface with external surfaces (52, 54) and (56) of first trunking section (32) and external surfaces (58, 60) and (62) of second trunking section (34).
